Patent Pending

Dutchman's Curve-bladed Tree Spade just got better.

Introducing Dutchman's new Shuttle Cylinder Tree Spade (Patent pending). The curve-bladed spades that have led the industry in strength, durability, and useability now carry Dutchman's patent pending Shuttletype hydraulic cylinders. These cylinders allow for a more compact design with more pushing power. Coupled with the many other features you have come to expect from Dutchman's spades, these cylinders are a force to be reckoned with.
